## ENVIRONMENTAL RACISM

環境的レイシズム

**“Environmental racism** refers to any environmental policy, practice or directive that differentially affects or disadvantages (whether intended or unintended) individuals, groups or communities based on race or colour.”

“**環境的レイシズム**とは、意図的・非意図的に関わらず人種や肌の色に基づいて個人、団体、コミュニティなどに差別的な影響や不利益を及ぼす全ての環境政策、事業、行為、法令などのことを指す。”

~ **Dr. Robert Bullard**

(known as “The Father of Environmental Justice” in the United States)

~ **ロバート・ブラード博士**

(アメリカで「**環境正義の父**」として知られる)

loss of livelihoods for us fishermen

私たち漁師の生業が失われるということ

**“Ever since the liquefied natural gas plant began operations, my health has deteriorated significantly. I have developed persistent burns, sores on my head, and other health issues.... Our shrimp business has suffered tremendously. Our local catch has diminished so much **it costs more to fish than we earn after expenses**. The decline has forced us to sell our boat and seek work in different fields, a challenging transition at our age.”**

『液化天然ガスプラントが稼働し始めてからというもの、明らかに体が悪くなってきました。頭皮には慢性の炎症ができて、他の健康問題も…エビ漁業も大変苦しくなっています。この地域での捕獲量は大幅に減ってしまい、漁を続けると赤字になります。捕獲量が減ったことでボートを売り、違う仕事を探すハメになりました。私たちの歳では、転職は大変です。』

### Louisiana communities are suffering from Japan-funded LNG exports

Published on 09/04/2024, 5:21 pm

Comment: When the Japanese and US leaders meet in Washington, they should back a renewable energy future that will end harm to our health and livelihoods from fossil gas
